Re: Air Pollution Control  
Draft Permit to Construct No. ACP-17970 v1.1  
& Draft Permit to Construct No. ACP-17971 v1.1

Dear Ms. Wallace:

Pursuant to the Air Pollution Control Rules of the State of North Dakota, the Department of Environmental Quality (Department) has reviewed the updated permit applications received August 8, 2025, to obtain Permits to Construct to increase the compressor engine emission limits for the Flickertail Compressor Station and the Rough Rider Compressor Station both located in Williams County, North Dakota.

Before making final determination on the draft Permits to Construct, the Department must first solicit public comment by means of the enclosed public notices. As indicated in the notices, the public comment periods will begin on January 28, 2026, and end February 27, 2026. The Department's analysis and a draft copy of the Permits to Construct may be found at <https://deq.nd.gov/AQ/PublicCom.aspx>.

All comments received will be considered in the final determinations concerning issuance of the permits. You will be notified in writing of our final determinations.

If you have any questions, please contact me at (701) 328-4639 or email [rsmartin@nd.gov](mailto:rsmartin@nd.gov).

Sincerely,

Russell Martin  
Environmental Scientist  
Division of Air Quality
