

NOTICE OF INTENT TO ISSUE AN  
AIR POLLUTION CONTROL  
PERMIT TO CONSTRUCT AND OPERATE

Take notice that the North Dakota Department of Environmental Quality proposes to issue a general Air Pollution Control Permit to Oil and Gas Production Facilities in accordance with the North Dakota Air Pollution Control Rules. The permit addresses Oil and Gas Production Facilities air pollution control requirements for facilities primarily located in the western half of North Dakota.

Preliminary evaluations made by Department staff indicate that these facilities will comply with all applicable Air Pollution Control Rules and there will be no detrimental/significant effects to air quality. Predicted concentrations in the air surrounding the facility are expected to be below the state and federal ambient air quality standards, which are standards that are set at a level to protect human health and the environment.
