Affected Medium: Well/Facility Soil

General Land Use: Well/Facility Site

Near. Occupied Bldg:

Nearest Water Well:

Type of Incident: Pump Leak

Release Contained: Yes - On Facility Site

Reported to NRC: No

	Spilled	Units	Recovered	Units	Followup	Units
Oil						
Brine						
Other	3	Barrels	3	Barrels	3	barrels
Oth Rel. Contaminant:	Condensate					

Date Inspected:

Clean Up Concluded: 7/28/2017

Written Report Recd: 8/4/2017

Risk Evaluation:

No impact to surface waters or human health.

Areal Extent:

The spill was contained on property owned by Bison Midstream, LLC.

Potential Env. Impacts:

The spilled condensate froze upon contact with the ground. The condensate impacted the facility topsoil and snow around the knockout tank. There was no impact to, or potential to impact, a water of the State.

Action Taken/Planned:

Operations isolated the frozen line and leaking pump seal until repairs could be made. Operations will install a check valve downstream of the pump to prevent back flow from occurring.

Wastes Disposal Location:

Recovered condensate and impacted soil will be hauled to a licensed disposal facility in the area.

Other Agencies Involved:

Updates

Date: 1/18/2017 ***Status:*** Reviewed - Assigned to Other Agency ***No Further Action:***

Author: DeVries, Taylor

Notes:

According to the report the release was contained to the compressor station. NDIC takes oversight.

Updated Volumes and Contaminant None at the time of this update
