Other

Oth Rel. Contaminant:

Date Inspected:

Clean Up Concluded: 4/21/2017

Written Report Recd: 5/2/2017

Risk Evaluation:

No immediate risk to report at this time.

Areal Extent:

The total affected area is approximately 25' (east/west) by 57.5' (north/south)

Potential Env. Impacts:

The release occurred above ground; ALL OIL REMAINED ON LOCATION. The majority of the released fluid was contained inside the Treater Building. There are no potential environmental impacts to report at this time. No Sensitive areas were impacted due to the release.

Action Taken/Planned:

The well along with the Recycle pump and valves were isolated. The release will be cleaned up and affected material will be properly disposed of at an approved waste facility. With warmer temperatures and rain in the forecast, a vacuum truck was immediately dispatched to vacuum up the pooled oil.

Wastes Disposal Location:

The recovered waste will be taken to an approved waste disposal facility
