## Updates

---

**Date:** 1/2/2018      **Status:** Reviewed - Follow-up Required      **No Further Action:** ☒

**Author:** O'Gorman, Brian

**Notes:**

Release, due to a fire, was not contained, according to the report. Further follow-up needed.

**Updated Volumes and Contaminant**    None at the time of this update

---

**Date:** 1/22/2018      **Status:** Inspection      **No Further Action:** ☒

**Author:** Schmitt, Bryan

**Notes:**

Date of Inspection: 1/17/2018, Time: 1:15 PM CST, Temp: 28F  
Snow/dirt pile indicated by the report was located near the flare and had not been removed from the pad. Minor impacts from oil misting were seen on the snow in the field adjacent to the flare. Further follow-up required, once the snow has melted, to make sure oil did not impact vegetation. Pictures were taken and added to the incident folder.

**Updated Volumes and Contaminant**    None at the time of this update

---

**Date:** 7/11/2018      **Status:** Inspection      **No Further Action:** ☒

**Author:** Crowdus, Kory

**Notes:**

On location 7/11/2018, at 11:23am. Majority of field to the east of location is not growing. It does not appear that it is a result of this release. Further follow-up later in growing season or possibly during next growing season to check on vegetation.

**Updated Volumes and Contaminant**    None at the time of this update

---

**Date:** 9/4/2019      **Status:** Correspondence      **No Further Action:** ☒

**Author:** Schiermeister, Robin

**Notes:**

A vegetation check has been scheduled for the fall of 2019. Further follow-up is necessary.

**Updated Volumes and Contaminant**    None at the time of this update

---

**Date:** 10/27/2020      **Status:** Inspection - No Action Required      **No Further Action:** ☒

**Author:** Lund, Dylan

**Notes:**

Arrived on location at 1110 on 10/27/2020

Agricultural field surrounding flare is growing healthily. There are no signs of any remaining environmental impacts from released oil and fire. No follow-up is required. Photos were taken and can be found in report folder.

**Updated Volumes and Contaminant**    None at the time of this update
