Risk Evaluation:

There are no immediate risks associated with this incident.

Areal Extent:

Potential Env. Impacts:

There are no potential environmental impacts associated with this incident. This is not a reportable spill to the NDIC based on volume; however, a small fire did occur on the ground at the flare stack which makes it a reportable incident.

Action Taken/Planned:

An employee was on location during the event. The employee quickly shut in the equipment and the fire quickly burnt itself out on the ground. A cleanup crew has been contacted and the misting oil will be removed and properly disposed.

Wastes Disposal Location:

To be determined based on volume; however, likely Secure Energy's Full Service Terminal in Keene, ND.
