Other

Oth Rel. Contaminant:

Date Inspected:

Clean Up Concluded: 1/19/2018

Written Report Recd: 10/22/2018

Risk Evaluation:

There is no immediate risk to report at this time.

Areol Extent:

52' by 12" area outside of the treater building

Potential Env. Impacts:

All of the released fluid remained on location, and most of the fluid remained inside the treater building.

Action Taken/Planned:

Approximately 19.5 bbl. of the released crude oil remained inside the treater building and was returned to the system. The spill is under investigation. A root cause analysis will be conducted. An Environmental Contractor will remediate the impacted areas.

Wastes Disposal Location:

All of the recovered waste will be disposed at an approved waste disposal facility.
