Updates

Date: 2/28/2018 **Status:** Reviewed - Follow-up Required

No Further Action:

Author: DeVries, Taylor

Notes:

According to the incident report, the release of 10 barrels of brine was not contained to the well pad. Further follow-up is needed.

Updated Volumes and Contaminant None at the time of this update

Date: 2/28/2018 **Status:** Inspection

No Further Action:

Author: Crowdus, Kory

Notes:

On location 2/28/2018, at 12:04pm. Release is off pad to the east. Snow and some soil are being scraped at the time of inspection. Area is approximately 60x10 yards. Material is being placed in a metal bin, which was full during inspection, the rest is being stockpiled on location. Further follow-up is required.

Updated Volumes and Contaminant None at the time of this update

Date: 9/4/2018 **Status:** Inspection

No Further Action:

Author: Martin, Russell

Notes:

8/23/2018 at 16:31, on location. Metal bin described in previous inspection is gone. Walked east edge of site, vegetation appears uniform, no barren areas within incident area. No further follow-up required at this time.

Updated Volumes and Contaminant None at the time of this update
