Updates

Date: 5/21/2018 **Status:** Reviewed - Follow-up Required

No Further Action:

Author: DeVries, Taylor

Notes:

According to the incident report, the fire was not contained to the well pad. Further follow-up is needed to assure no contaminants were released with fire.

Updated Volumes and Contaminant None at the time of this update

Date: 6/5/2018 **Status:** Inspection

No Further Action:

Author: Schiermeister, Robin

Notes:

Arrived on site at 15:12 on 5-31-2018. It was cloudy with temperatures in the 60s. Fire burned the grass north of the well pad, approximately 100 by 40 feet. Off pad there was no odor, just staining from the burnt material. Vegetation is starting to grow back in that area and looks healthy. No further follow-up is necessary.

Updated Volumes and Contaminant None at the time of this update
