Updates

Date: 7/9/2018 **Status:** Reviewed - Follow-up Required **No Further Action:**

Author: O'Gorman, Brian

Notes:

Release, due to a treater popoff, was not contained, according to the report. More follow-up needed.

Updated Volumes and Contaminant None at the time of this update

Date: 7/11/2018 **Status:** Inspection **No Further Action:**

Author: O'Gorman, Brian

Notes:

Arrived on location at 7:55. 75 degrees F, Mostly Cloudy, South wind 1-10 mph. Observed the site and took photos. The area outside the fenceline south of the treater had been cut and rowed for hay. An area closer to the fenceline about 20 feet wide and 100 feet long had been cut and removed. Did not notice any stained vegetation away from the cut and removed area. Some slight staining of vegetation was noted near the fenceline. More follow-up with company needed. Photos added to the incident folder.

Updated Volumes and Contaminant None at the time of this update

Date: 8/26/2019 **Status:** Inspection **No Further Action:**

Author: Suess, Bill

Notes:

Visited the site on 8/21/2019. Vegetation has recovered and is similar to surrounding area. No further action is warranted.
