Updated Volumes and Contaminant None at the time of this update

Date: 8/6/2019 **Status:** Inspection

No Further Action:

Author: O'Gorman, Brian

Notes:

Arrived on location at 13:13. Observed the incident area and took photos. It appeared the area of concern had been remediated appropriately with a wheat crop, appearing healthy and consistent in the field to the south. No further follow-up needed at this time. Photos added to the incident folder.

Updated Volumes and Contaminant None at the time of this update
