1331 17TH ST., SUITE 710

DENVER CO 80202

Affected Medium: Well/Facility Soil
General Land Use: Well/Facility Site

Near. Occupied Bldg: 1 Mile

Nearest Water Well:

Type of Incident: Fire Release Contained: No Reported to NRC: Yes

Spilled Units Recovered Units Followup Units

Oil 0.5 Barrels

Brine Other

Oth Rel. Contaminant: No other released substance

Date Inspected: Clean Up Concluded: Written Report Recd:

Fire posed risk to pasture lands, but the fire was guickly contained (no more than 2 hours).

Areal Extent:

Risk Evaluation:

20 acres of adjacent pasture, which has since been put out.

Potential Env. Impacts:

The actual spill was extremely small in volume and contained within the well site, so there was no risk to groundwater or soils. The fire posed a risk to surrounding flora and fauna, however this was quickly contained.

Action Taken/Planned:

Fire was contained and does not pose any future risk. Surface owner does not want any action taken from Samson, as the only casualty from the fire was some pasture lands.

Wastes Disposal Location:

There are no recovered wastes; the 1/2 bbl oil that spilled immediately burned off.

Other Agencies Involved:

Local Fire Department

Updates
