Updates

Date: 9/18/2018 **Status:** Reviewed - Follow-up Required

No Further Action:

Author: Stockdill, Scott

Notes:

According to the incident summary, this release impacted areas off of location. More follow-up is necessary.

Updated Volumes and Contaminant None at the time of this update

Date: 9/25/2018 **Status:** Inspection

No Further Action:

Author: O'Gorman, Brian

Notes:

Arrived on location at 11:45. Walked the perimeter of the well pad and took photos. It appeared that an area southeast of the fence-line had burnt vegetation and bare soil. Did not notice any petroleum staining of the soils/vegetation or fence-line. Follow-up with proper vegetative growth in the area next growing season. More follow-up needed. Photos added to the incident folder.

Updated Volumes and Contaminant None at the time of this update

Date: 6/11/2019 **Status:** Inspection

No Further Action:

Author: Crowdus, Kory

Notes:

On location 6/11/2019, at 10:42am. Vegetation off location is green and growing. No remaining impacts from fire seen at this time. No further follow-up required.

Updated Volumes and Contaminant None at the time of this update
