## Updates

---

**Date:** 10/29/2018      **Status:** Reviewed - Follow-up Required

**No Further Action:**

**Author:** O'Gorman, Brian

**Notes:**

Release, due to a treater popoff, was not contained, according to the report. Further follow-up needed.

**Updated Volumes and Contaminant**    None at the time of this update

---

**Date:** 10/31/2018      **Status:** Inspection

**No Further Action:**

**Author:** Schmitt, Bryan

**Notes:**

Time: 13:40 CT

Temp: 47 F

Mist impacted adjacent prairie land to the West of the well site. Oil covered vegetation on and off site has been cut and removed. Slight discoloration was observed on cut vegetation nearest to the well pad. No impacts on the soil were seen. Follow-up to check vegetation regrowth.

**Updated Volumes and Contaminant**    None at the time of this update

---

**Date:** 9/5/2019      **Status:** Inspection

**No Further Action:**

**Author:** Stockdill, Scott

**Notes:**

Arrived on location 11:07 9/5/2019.

No sign of contamination or remaining contaminants. Vegetation in the impact area is doing well.

No follow up is necessary.

**Updated Volumes and Contaminant**    None at the time of this update
