No Further Action:

Author: Stockdill, Scott

Notes:

Arrived on location 2:51 11/14/2018.

No sign of any work having been done on the area sprayed to the NW of the Flare.

Contact company regarding cleanup plans.

More follow-up is necessary.

Updated Volumes and Contaminant None at the time of this update

Date: 5/9/2019 **Status:** Inspection - Vegetation Check

No Further Action:

Author: Torgerson, Brad

Notes:

On 5/9/2019 at 11:43 am - Sunny and 48 degrees F - I walked the perimeter of the Kraken Operating LLC - Stedman 2-24H-2 production facility and noticed oil stained vegetation, and soil off of the location south and west of the flare. Clean-up appears to be necessary.

Updated Volumes and Contaminant None at the time of this update

Date: 4/16/2020 **Status:** Correspondence - More Follow-up Required

No Further Action:

Author: Kaiser, Don

Notes:

Emailed company for incident status update on 4/16/2020.

Updated Volumes and Contaminant None at the time of this update

Date: 4/18/2020 **Status:** Correspondence - More Follow-up Required **No Further Action:**

Author: Kaiser, Don

Notes:

Received email from company on 4/18/2020 as follows:

"Hi Don, On behalf of Kraken, I am responding to your request for clean-up status of open sites. We will be working over the next month, as the weather warms up and vegetation growth emerges, to review each of the areas in your list and prepare an update for you. We will get back to you by the end of May with the update, and will provide you with updates during May, as possible based on reviews. Please feel free to contact me with any questions or requests for additional information."

My phone number is provided below.

Thanks,

Stacy

Updated Volumes and Contaminant None at the time of this update

Date: 7/2/2020 **Status:** Correspondence - More Follow-up Required **No Further Action:**

Author: Kaiser, Don

Notes:

Received email from company on July 2, 2020 as follows. (Company photos are in incident report folder.)

"On behalf of Kraken Operating, LLC, I am submitting the subject closure request. We have inspected the area lightly misted by crude oil and have provided photo documentation of the established vegetative growth in the area (attached). Based on the observation of established vegetation, Kraken respectfully requests closure of this spill case. "

Updated Volumes and Contaminant None at the time of this update

Date: 10/29/2020 **Status:** Inspection - Vegetation Check **No Further Action:**

Author: Kaiser, Don

Notes:

Visited site on 10/20/2020. Soil not visible due to light snow cover on impacted area. Vegetation appears health and consistent. Photos are in incident report folder. Recommend vegetation check in late Spring/Summer.

Updated Volumes and Contaminant None at the time of this update

Date: 6/3/2021 **Status:** Inspection - Vegetation Check

No Further Action:

Author: Lund, Dylan
