Updates

Date: 11/19/2018 **Status:** Reviewed - Follow-up Required

No Further Action:

Author: O'Gorman, Brian

Notes:

Release, due to a valve/piping connection leak, was not contained, according to the report. Further follow-up needed.

Updated Volumes and Contaminant None at the time of this update

Date: 12/13/2018 **Status:** Inspection

No Further Action:

Author: Schiermeister, Robin

Notes:

Arrived on site at 13:20 on 12-13-2018. It was sunny with temperatures in the 20s. The release went off the well pad to the northeast; however, it appears that some berm work has been done. Due to this, it was difficult to see any impacts. A follow-up inspection should be made in the summer to check on vegetation.

Updated Volumes and Contaminant None at the time of this update

Date: 6/11/2019 **Status:** Inspection

No Further Action:

Author: Crowdus, Kory

Notes:

On location 6/11/2019, at 3:09pm. Area off location is showing growth consistent with the surrounding area. No further follow-up is required.

Updated Volumes and Contaminant None at the time of this update
