Other

Oth Rel. Contaminant:

Date Inspected:

Clean Up Concluded: 1/9/2019

Written Report Recd: 6/8/2019

Risk Evaluation:

There were no personal injuries and the fire was quickly extinguished using fire extinguishers.

Areal Extent:

A total of 1200 sq. ft. of grass was burned both on and off the lease site.

Potential Env. Impacts:

No impact to surface or ground water. Grass and soil were charred, but the grass will grow back in the spring.

Action Taken/Planned:

Mechanical and automation personnel are working on the root cause of the fires. The affected grass area will be raked out only. The area around the base of the flare will be back dragged and additional scoria will be added.

Wastes Disposal Location:

There should be no waste generated. If wastes are produced, they will be taken to Little Knife

Disposal.

Other Agencies Involved:

MHA Energy, TAT, BIA, BLM
