All recovered waste will be disposed at an approved disposal facility.

Other Agencies Involved:

Updates

Date: 1/16/2019 **Status:** Reviewed - Follow-up Required **No Further Action:** ☒

Author: O'Gorman, Brian

Notes:

Release, due to a treater popoff, was not contained according to the report. More follow-up needed.

Updated Volumes and Contaminant None at the time of this update

Date: 1/17/2019 **Status:** Inspection **No Further Action:** ☒

Author: DeVries, Taylor

Notes:

Inspection Date: 1/17/2019

Arrived on location at 1300. The vegetation by the treater is frosted. Looks like the vegetation is lightly stained with oil. Recommend coming back in summer months to check on vegetation.

Photos were taken and can be found in the report folder.

Updated Volumes and Contaminant None at the time of this update

Date: 10/3/2019 **Status:** Inspection - More Follow-up Required **No Further Action:** ☒

Author: O'Gorman, Brian

Notes:

Arrived on location at 11:26. 34 degrees F, Hazy, East wind 0-5 mph. Due to a lack of information on the specific location of the release, photos were taken of the whole pad and will be reviewed with other inspector to determine the location to make a determination. More followup needed. Photos added to the incident folder.

Updated Volumes and Contaminant None at the time of this update

Date: 12/31/2020 **Status:** Correspondence - More Follow-up Required **No Further Action:** ☒

Author: DeVries, Taylor

Notes:

A site visit is recommended. Further follow-up is needed.

Updated Volumes and Contaminant None at the time of this update

Date: 12/29/2021 **Status:** Inspection - More Follow-up Required **No Further Action:** ☒

Author: DeVries, Taylor

Notes:

Inspection Date: 12/29/2021

This release is within gated access. The gate was locked. An email will be sent to Hess asking for access and exact location of release.

No photos were taken.

Updated Volumes and Contaminant None at the time of this update

Date: 7/28/2022

Status: Inspection - No Action Required

No Further Action: ☒

Author: Suess, Bill

Notes:

Inspected the site on 7/25/2022. Observed the wellpad perimeter as well as the area near the treater and flare. The vegetation appeared healthy and consistent with the surrounding area. No further action is warranted.
