Updates

Date: 2/19/2019   **Status:** Reviewed - Follow-up Required   **No Further Action:** ☑

Author: DeVries, Taylor

Notes:

According to the incident report, a fire caused a release of oil off of the well pad. Further follow-up is needed.

Updated Volumes and Contaminant   None at the time of this update

---

Date: 2/20/2019   **Status:** Inspection   **No Further Action:** ☑

Author: O'Gorman, Brian

Notes:

Arrived on location at 12:30. 5 degrees F, Light Snow, Calm winds. Observed the area near the flare and took photos. Did not notice any impacted snow or fencing near the flare. Snow had been removed near the flare on the well pad. It did not appear that the impacts were off the well pad. No further follow-up needed at this time. Photos added to the incident folder.

Updated Volumes and Contaminant   None at the time of this update
