Updates

Date: 2/19/2019 **Status:** Reviewed - Follow-up Required

No Further Action:

Author: DeVries, Taylor

Notes:

According to the incident report, the release of oil was not contained to the well pad. Further follow-up is needed.

Updated Volumes and Contaminant None at the time of this update

Date: 2/20/2019 **Status:** Inspection

No Further Action:

Author: O'Gorman, Brian

Notes:

Arrived on location at 11:50. 5 degrees F, Calm winds, Foggy. Observed the site and took photos. There was an area south of the flare that had the snow removed and barb wire on the fence removed. It appeared that a majority of the impacted snow had been removed. Follow-up in spring/summer 2019 for proper vegetative growth in the area. Photos added to the incident folder.

Updated Volumes and Contaminant None at the time of this update

Date: 9/24/2019 **Status:** Inspection - No Action Required

No Further Action:

Author: Crowdus, Kory

Notes:

On location 9/24/2019, at 2:18pm. Vegetation in area is green and growing and looks consistent throughout. No further follow up is required.

Updated Volumes and Contaminant None at the time of this update
