Updates

Date: 3/8/2019 **Status:** Reviewed - Follow-up Required **No Further Action:**

Author: Crowdus, Kory

Notes:

Release impacted areas off location. Follow-up is required.

Updated Volumes and Contaminant None at the time of this update

Date: 3/13/2019 **Status:** Inspection **No Further Action:**

Author: DeVries, Taylor

Notes:

Inspection date: 3/13/2019

Arrived on location at 1630. Snow has been removed off of the pad from the flare to the shed/heater treater. Waddles have been put in place along scoria pad. Another inspection is needed in the summer time to asses vegetation growth.

Photos were taken and can be found in the report folder.

Updated Volumes and Contaminant None at the time of this update

Date: 3/29/2019 **Status:** Inspection **No Further Action:**

Author: Schiermeister, Robin

Notes:

Arrived on site at 10:17 on 3-27-2019. It was sunny with temperatures in the 40s. Walked around the perimeter of the well pad and saw scarce vegetation south of the well pad. A visit in the later summer is needed to check on vegetation regrowth.

Updated Volumes and Contaminant None at the time of this update

Date: 3/27/2020 **Status:** Correspondence - More Follow-up Required **No Further Action:**

Author: Lund, Dylan

Notes:

Received an email from RP contact with an NDIC follow-up report. Contact claims he was at the site last summer and there are no remaining impacts. Follow-up required for a vegetation check to ensure the site has been remediated. NDIC follow-up report is in the report folder.

Updated Volumes and Contaminant None at the time of this update

Date: 5/27/2021 **Status:** Inspection - Vegetation Check **No Further Action:**

Author: DeVries, Taylor

Notes:

Inspection Date: 5/27/2021

Arrived on location at 1840. There are bare patches of grass by the flare. The agriculture field has not been planted yet this year. There are a few straw waddles still in place in the ag field. Further follow-up is needed. Photos were taken and can be found in the incident folder.

Updated Volumes and Contaminant None at the time of this update

Date: 11/3/2021 **Status:** Inspection - Vegetation Check **No Further Action:**

Author: Suess, Bill

Notes:

This incident has been re-assigned to K. Crowdus.

Updated Volumes and Contaminant None at the time of this update

Date: 6/8/2022 **Status:** Inspection - No Action Required **No Further Action:**

Author: Crowdus, Kory

Notes:

On location 6/8/2022, at 5:26pm. No remaining impacts seen at this time. Vegetation in the field is showing new and consistent growth. No further follow-up needed.
