Oth Rel. Contaminant:
Date Inspected:

Clean Up Concluded:
Written Report Recd:

Risk Evaluation:
 Contaminated soil upon reclamation.

Areal Extent:

Potential Env. Impacts:
 Contaminated soil/facility soil.

Action Taken/Planned:
 Well was immediately shut-in and valves to tanks and from treater closed. Fluid coming from underground pipe slowed and stopped. Vac truck was dispatched at 15:00 and recovered 2 BBLS of oil which was placed back into the production tank. A NDOneCall was placed and will be cleared by Thursday 5/16/2019. NPR (Kayla Miller) met with forest service's Carmen Waldo to discuss clean-up actions on 5/14/2019 at 11:45. A plan to excavate the affected soil/facility will begin. Before backfilling the excavation, the USFS will be called to come out and inspect and approve. A proposal to move all underground lines above ground is being discussed with USFS. Spill clean-up work is estimated to be completed by 5/24/2019.

Wastes Disposal Location:

R360 solid waste disposal.

Other Agencies Involved:

BLM

Updates

Date: 5/14/2019 **Status:** Reviewed - Assigned to Other Agency **No Further Action:**

Author: Stockdill, Scott

Notes:

According to the incident summary, the responsible party will be working with the USFS to remediate the site. No follow-up by NDDEQ is necessary.

Updated Volumes and Contaminant None at the time of this update
