Updates

Date: 5/22/2019 **Status:** Reviewed - Follow-up Required **No Further Action:**

Author: Martin, Russell

Notes:

Release due to fire, was not contained on location, according to the report. Follow-up is necessary.

Updated Volumes and Contaminant None at the time of this update

Date: 5/22/2019 **Status:** Inspection **No Further Action:**

Author: O'Gorman, Brian

Notes:

Arrived on location at 15:42. 64 degrees F, Cloudy, Northeast wind 15-25 mph. Observed the site and took photos. It did not appear that there was any pipeline right of way release. It looked like a fire occurred west of the well pad and burned vegetation west and north of the flare pit. No further follow-up needed at this time. Photos added to the incident folder.

Updated Volumes and Contaminant None at the time of this update

Date: 7/2/2020 **Status:** Correspondence - More Follow-up Required **No Further Action:**

Author: Kaiser, Don

Notes:

Received email from company on June 30, 2020. Email has been added to incident folder.

"On behalf of Kraken Operating, LLC, I am submitting the subject closure request. We have inspected the area where the fire occurred and have provided photo documentation of the vegetative growth in the area (attached). Based on the observation of established vegetation, Kraken respectfully requests closure of this spill case."
