Date: 5/22/2019

Status: Reviewed - Assigned to Other Agency

No Further Action:

Author: Martin, Russell

Notes:

Called report contact. Fire started due to sudden increase of gas sent to flare causing some soot buildup on the flare to be removed, which fell on the dry grass. No oil or condensate was found after the fire was put out. NDIC retains oversight.

Updated Volumes and Contaminant None at the time of this update
