No Further Action:

Author: Martin, Russell

Notes:

Release due to issue with separator which caused a fire, was not contained on location, according to the report. Follow-up is necessary.

Updated Volumes and Contaminant None at the time of this update

Date: 6/4/2019 **Status:** Inspection

No Further Action:

Author: O'Gorman, Brian

Notes:

Arrived on location at 17:01. 79 degrees F, Sunny, Northwest wind 15-25 mph. Observed the site and took photos. The area burnt by the fire was noticeable without any vegetative cover towards the southwest. There was not any visible product on the soil surface near the flare and into the field. No further follow-up is needed at this time. Photos added to the incident folder.
