Updates

Date: 7/1/2019 **Status:** Reviewed - Follow-up Required

No Further Action:

Author: DeVries, Taylor

Notes:

According to the incident report, there was a release of 2 gallons of crude oil, due to a fire that made it off location. Further follow-up is needed.

Updated Volumes and Contaminant None at the time of this update

Date: 8/5/2019 **Status:** Inspection

No Further Action:

Author: Martin, Russell

Notes:

7/29/2019 at 13:17, on location. Large flare at SW corner of pad, as well as two smaller flares at SE corner. Checked areas offsite around both corners and found no evidence of fire. Vegetation appears healthy, though it was being mowed during the inspection. No staining observed within the vegetation. No further follow-up required.

Updated Volumes and Contaminant None at the time of this update
