Updates

Date: 10/31/2019 **Status:** Reviewed - Follow-up Required **No Further Action:**

Author: Crowdus, Kory

Notes:

Release impacted areas off location. Follow up is required.

Updated Volumes and Contaminant None at the time of this update

Date: 11/20/2019 **Status:** Inspection - More Follow-up Required **No Further Action:**

Author: Crowdus, Kory

Notes:

On location 11/20/2019, at 1:24pm. A workover rig is on location at this time. An inspection will need to be done at a later date. Further follow up is required. No photos taken.

Updated Volumes and Contaminant None at the time of this update

Date: 3/25/2020 **Status:** Correspondence - More Follow-up Required **No Further Action:**

Author: Suess, Bill

Notes:

This site will need to be re-inspected in the spring, when there is no longer a workover rig on location. The RP has been contacted for an update. They will be re-assessing the incident in the spring.

Updated Volumes and Contaminant None at the time of this update

Date: 7/23/2020 **Status:** Inspection - No Action Required **No Further Action:**

Author: Suess, Bill

Notes:

Inspected the site on 7/21/2020. No adverse environmental impacts associated with this incident were observed. The vegetation appeared healthy and consistent with the surrounding area. No further action is warranted.
