Updates

Date: 11/8/2019 **Status:** Reviewed - Follow-up Required

No Further Action:

Author: DeVries, Taylor

Notes:

According to the incident report the release of 40 barrels of crude oil was not contained to the well pad. Further follow up is needed.

Updated Volumes and Contaminant None at the time of this update

Date: 11/18/2019 **Status:** Inspection - More Follow-up Required

No Further Action:

Author: Schmitt, Bryan

Notes:

Inspection Date: 11/14/2019

Time: 12:10 pm CT

Temp: 38F

Oil spill occurred south of the treater. Impacted soil was observed off pad and snow covered a portion of the spill area. I did not see any oil staining on vegetation approximately 30 feet to the south. Pictures taken.

Updated Volumes and Contaminant None at the time of this update

Date: 7/31/2020 **Status:** Inspection - No Action Required

No Further Action:

Author: Martin, Russell

Notes:

7/16/2020 at 13:51, on location. Walked site, vegetation off pad to the south appears healthy, no visible staining from the incident appears to remain on the wellpad. No further-follow-up needed.

Updated Volumes and Contaminant None at the time of this update
