Oil	76	Barrels	75	Barrels		
Brine	380	Barrels	375	Barrels		

Other

Oth Rel. Contaminant: N/A

Date Inspected:

Clean Up Concluded:

Written Report Recd:

Risk Evaluation:

N/A

Areal Extent:

6 inches x 15' of water and 6 inches x 4' of oil seeped from the berm

Potential Env. Impacts:

There should be no immediate environmental impacts

Action Taken/Planned:

Vac trucks were immediately dispatched and had product recovered within 4.5 hours and returned to storage tanks. A hot oil truck was on site and recovered clean-up water and residual oil left on ground. A steamer was also brought in to clean the exterior of the tanks. An investigation will be conducted to see why the alarm did not activate.

Wastes Disposal Location:

Contaminated soil will be taken to Environmental Solutions

Other Agencies Involved:

Updates

Date: 8/3/2020 **Status:** Reviewed - Assigned to Other Agency **No Further Action:**

Author: DeVries, Taylor

Notes:

According to the incident report, the release of oil and production water were contained to the well pad. Due to the large quantity, an inspection is recommended to ensure all contamination stayed on location. Further follow-up needed.

Updated Volumes and Contaminant None at the time of this update

Date: 8/6/2020 **Status:** Inspection - No Action Required **No Further Action:**

Author: Crowdus, Kory

Notes:

On location 8/6/2020, at 12:21pm. It does not appear the release got off location. Incident will be closed and fall under NDIC jurisdiction.
