Date Inspected:

Clean Up Concluded:

Written Report Recd:

Risk Evaluation:

There is no further risk to human health.

Areal Extent:

Storm water carried oil impacted water and impacted a 40' x 40' spot at the location perimeter.

Potential Env. Impacts:

There is no other potential impacts to the environment.

Action Taken/Planned:

The valve was closed and secured. All free standing fluids were recovered. The soil that is stained will need to be cleaned up. We will inspect all valves located on all locations and secure valves from accidental movement due to livestock, wildlife or intentional acts.

Wastes Disposal Location:

All recovered soils will be taken to Clean Harbors. All recovered fluids will be taken to a Cobra operated disposal well.
