Updates

Date: 8/6/2020 **Status:** Reviewed - Follow-up Required **No Further Action:** ☒

Author: DeVries, Taylor

Notes:

According to the incident report, the release of crude oil was not contained to the well pad. Further follow-up is needed.

Updated Volumes and Contaminant None at the time of this update

Date: 8/17/2020 **Status:** Inspection - More Follow-up Required **No Further Action:** ☒

Author: DeVries, Taylor

Notes:

Inspection Date: 8/17/2020

Arrived on location at 1645. The hillside corner looks like it has been worked. Also there is a bare spot at the bottom of the steep berm (right on the corner). Further follow-up to make sure vegetation grows back.

Photos were taken and can be found in the report folder.

Updated Volumes and Contaminant None at the time of this update

Date: 11/6/2020 **Status:** Inspection - No Action Required **No Further Action:** ☒

Author: Suess, Bill

Notes:

Inspected the site on 11/3/2020. No adverse environmental impacts associated with this incident were observed. The vegetation appears to be recovering well and is consistent with the surrounding area. No further action is warranted.
