Updates

Date: 12/22/2020 **Status:** Reviewed - Follow-up Required

No Further Action:

Author: DeVries, Taylor

Notes:

According to the incident report, the release was not contained. Further follow-up is needed.

Updated Volumes and Contaminant None at the time of this update

Date: 12/30/2020 **Status:** Correspondence - Vegetation Check

No Further Action:

Author: Lund, Dylan

Notes:

Spoke with RP regarding this release. Landowner does not want anything done at this time and would like to wait until the spring to check regrowth. RP stated if regrowth is not there in the spring they will do whatever is necessary to bring vegetation back to health.

Updated Volumes and Contaminant None at the time of this update

Date: 6/9/2021 **Status:** Inspection - More Follow-up Required

No Further Action:

Author: Lund, Dylan

Notes:

Arrived on location at 1400 on 6-9-2021.

Walked around the field to the NW of the flare. The surrounding vegetation is growing healthily and there were no signs of environmental impacts. No follow-up is needed. No photos taken.

Updated Volumes and Contaminant None at the time of this update
