Author: Stockdill, Scott

Notes:

According to the incident summary this release impacted areas off of location. Follow-up is necessary.

Updated Volumes and Contaminant None at the time of this update

Date: 12/29/2020 **Status:** Correspondence - Vegetation Check

No Further Action:

Author: DeVries, Taylor

Notes:

Inspection Date: 12/29/2020

Arrived on location at 1120. The grassy hillside area off of the pad next to the tanks has been mowed. Did not observe any other staining around pad. Further follow-up is needed in the summer months to assure vegetation growth.

Photos were taken and can be found in the report folder.

Updated Volumes and Contaminant None at the time of this update

Date: 8/10/2021 **Status:** Inspection - No Action Required

No Further Action:

Author: DeVries, Taylor

Notes:

Inspection Date: 8/10/2021

Arrived on location at 1805. Inspected the area around the pad. Did not observe any bare patches of vegetation. The perimeter of the pad is green and growing. No further follow-up is needed.

Photos were taken and can be found in the incident folder.

Updated Volumes and Contaminant None at the time of this update
