Updates

Date: 5/24/2017 **Status:** Reviewed - Follow-up Required

Author: O'Gorman, Brian

Notes:

Release, due to a hose leak, impacted soil in the area of the truck. Further follow-up needed.

Updated Volume: None at the time of this update

Date: 6/9/2017 **Status:** Inspection

Author: Martin, Russell

Notes:

5/31/2017 at 13:00, on location. Called report contact and confirmed location of impact. Spill occurred at gettybox in NE corner of facility (Plains Marketing's Trenton station D0011). Currently, the impacted material has been dug up and is sitting on a tarp between the getty box and a metering shack. Once the material has been removed for disposal, a final inspection will be conducted to confirm no impact remains.

Updated Volume: None at the time of this update

Date: 9/29/2017 **Status:** Inspection

Author: Martin, Russell

Notes:

9/27/2017 at 11:03, on location. Impacted material has been removed, no visible staining where material was stored. No further follow-up required at this time.

Updated Volume: None at the time of this update
