Williston ND 58801

Affected Medium: 03 - soil

Near. Occupied Bldg:

Type of Incident: Vehicle Accident

Release Contained: Yes

Reported to NRC: Unknown

Contaminant: 70/30 blended diesel fluid

Volume of Release: 10 gallons

Duration of Release: 4 hours

Agriculture Related: No

EPA Extremely

Hazardous Substance: Unknown

Number of Fatalities: 0

Number of Injuries: 0

Cause of Incident:

Truck with sidedump was unloading at jobsite off CR 30. During unloading process the truck and trailer tipped over onto its side and punctured fuel cell which allowed diesel fuel to leak out onto topsoil pile.

Risk Evaluation:

Harmful vapors if inhaled. Potential flammable vapors.

Potential Env. Impacts:

Spills may infiltrate subsurface soil and groundwater.

Action Taken/Planned:

Alerted police department. Contacted McKenzie County Health Department regarding spill who sent out an investigator to spill site. Diesel leaked onto fresh topsoil that had been piled and just hauled to CR 30 jobsite. Soil was loaded into one dump truck and 2 sidedumps and taken to Gibson Landfill

Wastes Disposal Location:

Gibson Landfill in Williston ND

Other Agencies Involved:

Local Law Enforcement, Local Emergency Manager
