Affected Medium: 03 - soil

Near. Occupied Bldg: 1 Miles

Type of Incident: antifreeze spill

Release Contained: Yes

Reported to NRC: Unknown

Contaminant: Antifreeze spill

Volume of Release: 4 gallons

Duration of Release:

Agriculture Related: No

EPA Extremely Hazardous Substance: No

Number of Fatalities: 0

Number of Injuries: 0

Cause of Incident:

A 5 gallon container of antifreeze fell off of the truck bed onto a gravel road

Risk Evaluation:

There is not immediate risk to health or environment since the spills was cleaned up promptly.

Potential Env. Impacts:

The potential for environmental impacts is low to non-existent because of the limited volume of antifreeze, the location of the spill on a gravel road, and the prompt recovery of the material.

Action Taken/Planned:

The spill was shoveled up and transferred to a dumpster at the Bison Terminal.

Wastes Disposal Location:

The impacted soil will be picked up and transported by Clean Harbors to an approved landfill.

Other Agencies Involved:

Updates

Date: 9/7/2017 **Status:** Reviewed - No Action Required

Author: O'Gorman, Brian

Notes:

According to the report, 4 gallons of anti-freeze was released onto a gravel road. The report states that the spill was shoveled up and transferred to a dumpster for disposal. Due to the small amount released and cleanup action taken, no further follow-up needed at this time.

Updated Volume: None at the time of this update
