## Updates

---

**Date:** 9/11/2017      **Status:** Reviewed - Follow-up Required

**Author:** Crowdus, Kory

**Notes:**

Release in roadway ditch. Follow-up required.

**Updated Volume:** None at the time of this update

---

**Date:** 9/12/2017      **Status:** Correspondence

**Author:** Suess, Bill

**Notes:**

Received MSDS on ASP-820 from responsible party. Responsible party stated that Clean Harbors is remediating the site and will collect confirmation samples.

**Updated Volume:** None at the time of this update

---

**Date:** 9/13/2017      **Status:** Reviewed - Follow-up Required

**Author:** Wax, Pete

**Notes:**

On site 08:33, clear, calm 64 degrees, nearest pathway to water is highway 85 south ditch. Spill occurred just in the agricultural field on the south side of highway. GPS coordinates are accurate. There is still moisture and staining on top, along with a hydrocarbon smell. Additionally there are a few vehicle related pieces of metal and rubber at the site. Area disturbed is not substantial at approximately 20' by 30' and appears that it would be a fairly simple task to clean up. A follow-up visit is needed to ensure that the cleanup is accomplished. Off Site 8:50.

---

**Date:** 11/28/2017      **Status:** Inspection

**Author:** Washak, Sandi

**Notes:**

Arrived onsite at 4:25pm weather was sunny with temperature of 46 degree F. GPS N47.80453 W 103.61788 located on the south side of HWY 85. An area of about 20 feet by 20 feet has been scraped up and you can see where truck tracks have left the highway. There are still parts of the truck in the ditch, but the area where soil has been scraped is located on top of the ditch next to a field. Will need to contact company to see if clearance soil samples were collected. Additional follow-up needed.

**Updated Volume:** None at the time of this update

---

**Date:** 8/28/2019      **Status:** Inspection

**Author:** Washek, Sandi

**Notes:**

Arrived onsite at 2:10pm; weather was sunny with wind out of the NW at 15 miles/Hr. Temperature of 80 degrees F.

The area of impacted has been cleanup and the truck parts have been removed. You can see in the ditch an area where the grass is not growing due to fresh soil. Appears that the area has been scraped up again. Due to past accidents in the ditch area, no additional follow-up needed
