**Number of Fatalities:** 0

**Number of Injuries:** 0

**Cause of Incident:**

5 gallon container fell off tender truck and ruptured on the gravel road

**Risk Evaluation:**

None

**Potential Env. Impacts:**

Should be none as excavated material has been dug up and stored in covered location on concrete until disposal is determined

**Action Taken/Planned:**

Loader was used to dig up impacted soils that were brought inside CHS Fertilizer plant, on concrete and covered. Material will probably be incorporated into fertilizer and spread at an agronomic rate if property can be located. Material is housed in a safe location for time being

**Wastes Disposal Location:**

We will either field apply at agronomic rate with fertilizer or if suitable field cannot be located, it will probably go to Sawyer landfill.
