Type of Incident: Leak from Roll Off

Release Contained: No

Reported to NRC: Unknown

Contaminant: water impacted with diesel fuel

Volume of Release:

Duration of Release:

Agriculture Related: No

EPA Extremely

Hazardous Substance: Unknown

Number of Fatalities: 0

Number of Injuries: 0

Cause of Incident:

Lined roll off containing bags of diesel impacted sorbents was moved from a tank containment area, to a flat surface and staged for transport. During a regular facility inspection, it was noticed that liquid has leaked from the door area of the roll off.

Risk Evaluation:

none

Potential Env. Impacts:

none

Action Taken/Planned:

Impacted gravel was containerized and sorbents were placed under the door area. The roll off was repositioned so that liquids would flow to the opposite side of the box. Liquids will be removed and sorbent bags will be transported to a permitted disposal facility.

Wastes Disposal Location:

Vonco
