Prairie Disposal

Other Agencies Involved:

Updates

Date: 1/9/2019 **Status:** Reviewed - Follow-up Required

Author: Stockdill, Scott

Notes:

According to the incident summary, this release occurred at a location not associated with exploration and production. Follow-up is necessary.

Updated Volume: None at the time of this update

Date: 1/16/2019 **Status:** Inspection

Author: Stockdill, Scott

Notes:

Arrived on location 1/16/2019 10:30.

Release from tanks of condensate flowed into pooling area. Site is being excavated with most of the impacted materials being removed. There is a culvert the spill may have possibly travelled down. Consultant onsite is going to take a sample to confirm the spill didn't travel down it.

No onsite follow-up is necessary.

Updated Volume: None at the time of this update

Date: 3/14/2019 **Status:** Correspondence - More Follow-up Required

Author: Stockdill, Scott

Notes:

Email from consultant for the responsible party.
