Updates

Date: 3/13/2019 **Status:** Reviewed - No Action Required

Author: Martin, Russell

Notes:

Release due to equipment failure, resulting in a small volume spilled at a non-E&P exempt facility that was immediately cleaned up, according to the report. Follow-up is necessary to verify adequate cleanup.

Updated Volume: None at the time of this update

Date: 4/23/2019 **Status:** Inspection

Author: O'Gorman, Brian

Notes:

Arrived on location at 13:13. 67 degrees F, Mostly Cloudy. Observed the location and took photos. Did not notice any petroleum staining leading to the storm drains on the location. Normal stained cement areas were noted around the fill up areas. No vegetation down-gradient of the location appeared stressed and/or petroleum stained. No further follow-up needed at this time. Photos added to the incident folder.

Updated Volume: None at the time of this update
