Other Agencies Involved:

Updates

Date: 3/18/2019 **Status:** Reviewed - Follow-up Required

Author: O'Gorman, Brian

Notes:

Release, due to an air eliminator breakage, impacted soils in the area, according to the report. Further follow-up needed.

Updated Volume: None at the time of this update

Date: 4/9/2019 **Status:** Inspection

Author: Martin, Russell

Notes:

4/5/2019 at 11:42, on location. Site is co-located with Plains Marketing and Bridger Pipeline equipment. Could not locate any piece of equipment that resembled an air eliminator, but did not see any staining underneath equipment that was onsite. Received disposal receipts from the report contact. No further follow-up needed at this time.
