EPA Extremely

Hazardous Substance: NoNumber of Fatalities: 0Number of Injuries: 0

Cause of Incident:

During the horizontal directional drilling of a 20 inch natural gas pipeline under a drainage, drilling mud made its way to the surface in the bottom of the drainage. This area is a dry wetland.

Risk Evaluation:

none

Potential Env. Impacts:

none

Action Taken/Planned:

The mud was recovered from the ground using a vac truck and hauled away for disposal.

Wastes Disposal Location:

Secure Disposal, Keene North Dakota

Other Agencies Involved:

Updates

Date: 5/16/2019 Status: Reviewed - Follow-up Required

Author: Stockdill, Scott

Notes:

According to the incident summary, this spill involved a large amount of material lost. Follow-up is

necessary to ensure proper cleanup.

Updated Volume: None at the time of this update

Date: 5/23/2019 Status: Inspection

Author: Crowdus, Kory

Notes:

On location 5/23/2019, at 11:33am. Met with company contact. The release was approximately 200 yards east of the pipeline access road. Silt fences are in place to contain material. Vac trucks have been at the site sucking up material. Minimal material remains at the site. No further follow-up is required.
