1800 E Broadway Ave, Suite 400

Bismarck ND 58501

Affected Medium: 03 - soil

Near. Occupied Bldg: 1 Miles

Type of Incident: Frack out

Release Contained: Yes

Reported to NRC: Unknown

Contaminant: Bentonite water

Volume of Release: 50 gallons

Duration of Release: 5 minutes

Agriculture Related: No

EPA Extremely

Hazardous Substance: NoNumber of Fatalities: 0Number of Injuries: 0

Cause of Incident:

Bore hole packed off and caused pressure build up in bore hole. Drilling fluid came up in shallowest part of bore.

Risk Evaluation:

None

Potential Env. Impacts:

Little to none

Action Taken/Planned:

Frack was discovered very early. Boring operations were suspended immediately. Hydrovac was brought onsite to contain spill.

Wastes Disposal Location:

In a bore pit

Other Agencies Involved:

Updates

Date: 7/12/2019 Status: Reviewed - No Action Required

Author: O'Gorman, Brian

Notes:

According to the report, 50 gallons of bentonite water was released during boring operations. Report says release was contained within borehole and vacuumed out immediately. No further follow-up should be needed at this time due to inert composition of released material.

Updated Volume: None at the time of this update
