Notes:

Follow-up is needed.

Updated Volume: None at the time of this update

Date: 10/23/2019 **Status:** Inspection - No Action Required

Author: O'Gorman, Brian

Notes:

Arrived on location at 13:57. Met with the responsible party, company rep, and facility rep. They walked me to the location and described the scenario and showed me the approximate area impacted. The facility rep explained that they dug approximately 4" at the furthest extent to 10" near the release. Area impacted was on a facility grading with packed clay at 4". Did not notice any stained gravel at the location. Company is forwarding report to Scott. Recommend closing if report is appropriate. Photos added to the incident folder.
