Affected Medium: 02 - water

Near. Occupied Bldg:

Type of Incident: Pump Leak

Release Contained: Yes

Reported to NRC: Unknown

Contaminant: Oil

Volume of Release:

Duration of Release:

Agriculture Related: No

EPA Extremely Hazardous Substance: Unknown

Number of Fatalities:

Number of Injuries:

Cause of Incident:

Filter broke on holding tank causing approximately 10 gallons of oil to go into sewer drain. CNH was able to contain the problem with very limited amount reaching ditch. Currently working with City of Fargo to monitor it as we wash out the main drain. City of Fargo has expressed that there will be no concern over the issue due to the response CNH has given to contain problem.

Risk Evaluation:

Very little risk associated with the contamination to water based on feedback from City of Fargo spokesperson. City of Fargo is monitoring on their end as well.

Potential Env. Impacts:

0 likelihood of any impacts to environment.

Action Taken/Planned:

Containment was put into waterway and around storm/sewer drains located at CNH with City of Fargo present. Due to the very limited amount, City of Fargo has mentioned they will have no concern over the issue.
