Section 1. Business Information: (Self-explanatory.)

Section 2. Waste Collection: (Mark the appropriate box with an "X.")

Asbestos	Any waste material containing asbestos in the regulated concentration of 1 percent (%) or greater.
Industrial	Such waste may include, but is not limited to, residues or spills of any industrial or manufacturing process and waste resulting from the following: fertilizer/agricultural chemicals; food and related products/byproducts; inorganic chemicals; iron and steel manufacturing; leather and leather products; nonferrous metals manufacturing and foundries; organic chemicals; plastics and resins manufacturing; pulp and paper industry; rubber and miscellaneous plastic products; textile manufacturing; transportation equipment; petroleum refining, and the combustion of municipal waste or regulated infectious waste. <u>Not Oilfield Exploration and Production wastes unless transportation related.</u>
Inert	Nonputrescible solid waste which will not generally contaminate water or form a contaminated leachate. Inert waste does not serve as food for vectors. Inert waste includes, but is not limited to: construction and demolition material such as metal, wood, bricks, masonry and cement concrete; asphalt concrete; metal; tree branches; bottom ash from coal-fired boilers; and, waste coal fines from air pollution control equipment.
Infectious	Solid waste that may contain pathogens with sufficient virulence and in sufficient quantity that exposure of a susceptible human or animal to the solid waste could cause the human or animal to contract an infectious disease.
Municipal	Solid waste includes garbage, refuse, and trash generated by households, motels, hotels, and recreation facilities, by public and private facilities, and by commercial, wholesale, and private and retail businesses. Putrescible solid waste includes animal and vegetable waste resulting from the handling, preparation, cooking, and consumption of food, including wastes from markets, storage facilities, and processing plants. The term includes commercial waste, which is solid waste generated by stores, offices, restaurants, warehouses, and other nonmanufacturing activities exclusive of household waste, industrial waste, and special waste. The term does not include special waste or industrial waste.
PCB's	Any waste material containing Polychlorinated Biphenyls (PCB's) in the regulated concentration of 50 parts per million (ppm) or greater.
Recyclable Material	A solid waste material that has been segregated or converted into a raw material, substitute for a raw material, or a commodity (not a universal waste).
Special Waste	Solid waste, that is not a hazardous waste, generated from energy conversion facilities; waste from crude oil and natural gas exploration and production; waste from mineral and ore mining, beneficiation, and extraction; and waste generated by surface coal mining operations. Includes oilfield production brine water.
Sump and Pit	Solid waste from sumps, pits, or sand-traps that is <u>not classified as sewage or is oilfield related</u> , i.e, carwash pits, automotive repair shop sumps/pits. This waste should not contain any free or liquid used oil other than in trace amounts before disposal.

If additional information is required, provide that information in the allotted space.

Section 3. Collection Vehicles:

- Quantity - actual number of the type of vehicle used for transportation.
- Type - body style of vehicle, such as flatbed, van trailer, compactor, tanker, etc.

Section 4. Collection Area Serviced:

List counties, states and/or Canadian Provinces. "Statewide" is permissible.

Section 5. Final Disposal Facilities:

Name and address of disposal facility - self-explanatory. "Per customer" is permissible for hazardous waste transporters only. The "Disposal facility" is the final facility where the waste is going to be destroyed, interred, or recycled.

Section 6. Signature. The applicant must sign the form and print their name and the date the form was completed.

The applicant must provide a disclosure statement executed under oath or affirmation if it has: 1) any civil and administrative complaints against it for the violation of any state or federal environmental protection law which has resulted in a fine or penalty of more than \$10,000 within 5 years before the date of submission of this application; 2) any pending criminal complaint alleging the violation of any state or federal environmental protection law; 3) any judgment of criminal conviction entered against it within 5 years before the date of submission of this application for the violation of any state or federal environmental protection law; or, 4) any judgment of criminal conviction of a felony constituting a crime involving fraud or misrepresentation under the law of any state or of the United States which has been entered against it within 5 years before the date of submission of the application. The statement must fully address all of the above provisions. The Department will verify and may investigate the information in the statement and may deny the application based on the findings. Applicants are subject to enforcement action if: 1) the Department discovers, after a permit has been issued, that the applicant was required to but did not provide a disclosure statement with the application; or 2) the Department discovers that the applicant intentionally misrepresented or concealed any material fact in the disclosure statement.
