

The Power of Partnership: Sharing Resources with Neighboring Systems

Bismarck, ND | October 7, 2019 | 9:00AM-4:30PM

Ramkota Hotel and Conference Center, Governors Room
800 South 3rd Street, Bismarck, ND 58504

About this Complimentary Workshop:

Running a small system can be challenging. Along with meeting regulatory obligations and satisfying customer expectations, you may have issues with aging infrastructure, lack of personnel, and limited financial resources. Furthermore, small systems often cost more to operate per capita than large systems because of economy of scale. This can further complicate operations.

One strategy to address these challenges is to work with other utilities. In this workshop, we will discuss various approaches to collaboration, including:

- Informal information sharing
- Sharing personnel
- How to prepare your utility for knowledge or technology transfer
- The fundamentals of asset management to prepare your utility for partnership

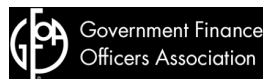

Trainer: Hayley Hajic, Research Scientist, Southwest Environmental Finance Center

Continuing Education: This workshop has been approved for 3 credits from NDEQ.
