Produced Water Spill in McKenzie County

BISMARCK, N.D. – A production water release occurred from a pipeline operated by Enable Midstream Partners on Tuesday, Sept. 29, approximately 9.5 miles west of Mandaree.

The released amount is approximately 1,000 barrels of produced water. There is no known impact to water currently.

Personnel from the North Dakota Department of Environmental Quality have been on-site and are continuing to monitor the investigation and cleanup.
