North Dakota Department of Environmental Quality provides flood remediation information

BISMARCK, N.D. – The North Dakota Department of Environmental Quality has detailed information about flood preparation and remediation including septic protection and proper cleanup after a flood online at deq.nd.gov/flood.

A number of topics are covered such as proper waste disposal and debris removal, treating mold in homes, asbestos hazards, proper well disinfection, indoor heating oil spills, private sewer and septic systems, underground storage tanks and sandbag cleanup.

Citizens may also contact Environmental Quality at 701-328-5150 or email deq@nd.gov.
